

GT Treat (Liquid)

Brand: Smellgone
Product Code: sg0008
Availability: 15
Weight: 1.45kg
Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: \$25.41

Ex Tax: \$23.10

Short Description

Smellgone's grease trap additive is available as a liquid or powder. GT Treat uses selected bacteria that actually 'eat up' grease, fats and oils.

Description

Smellgone's grease trap additive is available as a liquid or powder. GT Treat uses selected bacteria that actually 'eat up' grease, fats and oils. Other additives only break up the fats, they don't digest them completely. GT Treat reduces odours and consumes fats, oils and grease, reducing pumpout frequency.

GT Treat liquid can be added down the kitchen drain or directly to the grease trap. A programmable dosing controller and pump is available for commercial installations. GT Treat powder is a concentrated additive that is manually added directly to the grease trap.
